PROBLEMS, NEEDS, & INTERESTS IDENTIFIED:

There is no parental accountability. Parents don't discipline their children. Parents allow kids to
get away with things they could not get away when they were a kid. Parents want their kids to have
things but they should be acquired the right way. There are no boundaries. Another problem is no
accountability from the school system. The kids are not achieving. Schools should offer
alternatives for kids not achieving. School's job is to educate and the parent's job is to discipline.
The last problem is socio-economic. Some families don't earn enough to sustain themselves. We
need jobs for those families. There is a link between poverty and crime.

PROBLEMS, NEEDS, & INTERESTS IDENTIFIED:

The number one problem is parenting. Raising children begins in the home, then school, then
the community. Parents do not listen to their children and children do not listen to their parents.
Parents should listen to their children then talk to them. Tough love is needed. Tough love is
discipline. Spanking should be put back in schools. It really does take a village to raise a
child but we've gotten away from that. Parents should also teach respect. Also parents should do
more activities with their kids. Some kids act out because of a bad situation at home. Love and
attention are needed. Stability is needed at home and at school. It all starts with the parents.

Subject: FW: Memphis Healthy Churches Annual Banquet

Ms. Stovall,

Per your request, I am sending you information regarding the Memphis Healthy Churches (MHC) 9th Annual Awards Banquet which is to be held on Friday January 25th, 2008 (*please see attached invitation*). Memphis Healthy Churches is an outreach program of Christ Community Health Services targeting African-American churches with health and wellness programs.

MHC has been in existence since 1998. This program partners with trained volunteer health representatives and their pastor's to improve the health status of congregants through various program offerings. This banquet is designed to recognize the work that each participating church has done to raise health awareness.

Traditionally, we have a local news personality to serve as the Master or Mistress of ceremonies for this event followed by coverage on the night broadcast. We would be delighted to have a member of Clear Channel to serve as MC of our event.

I realize that you may have spoken with Vincent Glover originally; however, we desperately need to confirm our MC by January 18th. I would like very much to include the bio of MC in our printed program.

Thanks so much for your time and assistance,

Patria Johnson, Program Manager
